

HÔTEL ERMITAGE
ÉVIAN RESORT

AN AUTHENTIC
ESTABLISHMENT

The Hôtel Ermitage is like a warm, welcoming family home, one that will win over those seeking to revitalise surrounded by nature. A four-star hotel ideal for sharing special moments together as a couple or with family or friends. Where happiness is found!

ITS HISTORY

Built in 1908-1909 by architect and landscape gardener Henri Martinet (who designed the Shinjuku Gyoen gardens in Tokyo), from the moment it opened the Hôtel Ermitage welcomed aristocrats and well-known families including the Schlumbergers, Singers and the Countess of Castellane. It was a hotel until the 1930s, then was transformed into a hospital in 1950 and subsequently became a renal centre in 1967.

The Hôtel Ermitage was **bought in 1991** by the Evian Mineral Water Company, and after its meticulous refurbishment inspired by nature, it was returned to its initial purpose. **In 2010**, the hotel was completely renovated by interior designer **Patrick Ribes**, advised by the designer Delphine Chaumon Aidan, which gave it its current identity: a sophisticated, intimate feel with subtle touches of nature throughout.

AN INVITING, FRIENDLY ATMOSPHERE

With its Anglo-Normand architectural style and elegantly decorated 80 rooms and family suites, the Hôtel Ermitage is a charming property. Located at the heart of the Evian Resort, guests enjoy access to a host of activities to suit everyone, whatever their preferences or desires. With its open fireplace and cosy feel in wintertime and outdoor terrace facing the lake throughout the rest of the year, the Hôtel Ermitage is a place where it is easy to let go. A place for happy times together in a laid-back ambience. This is the appeal of this 4-star hotel that combines warmth and authenticity to perfection, like a family home.

The decoration features natural materials and understated lines combined with raw elements such as wood, stone and leather. Hues of brown, plant patterns and subtle blends of colour all create references to nature. The bathrooms have been designed using mineral materials in shades of grey and taupe. Pebbles and slate work with transparency to retrace the history of water and its journey from the mountains to the spring.

Guest rooms at the Hôtel Ermitage are comfortable and stylishly decorated, perfectly suited to accommodate parents and children.

DINING AT THE HÔTEL ERMITAGE

In the warm setting of the **La Table** restaurant or seated out on the lakeview terrace when the weather is fine, the Chef and his brigade propose casual dining with flavoursome recipes that change with the seasons. The menu showcases local produce such as fish from Lake Geneva caught by the Pecquery family, cured meats by Simon and cheese from the Chalets d'Oche farm. The generous, varied Sunday brunch is an event not to be missed by food lovers.

The bar **La Bibliothèque** serves a delightful selection of cocktails, hot drinks and organic fruit juices in a hushed atmosphere, reminiscent of an English bar. In summer, the pool-side "**La Chaise Longue**" serves cocktails, fresh fruit juices and food bowls in an aestival setting.

le Spa quatre terres

A WELLNESS RETREAT AMIDST NATURE

The Spa Quatre Terres is a place of mineral serenity, a soothing world in which every detail is a reminder of nature's omnipresence.

The hushed ambience of the Spa Quatre Terres is conducive to relaxation and letting go. Its original treatment list proposes a wide range of tailored beauty and relaxation treatments: hot stone massage, traditional Chinese body treatments, body scrubs and wraps, beauty treatments... The spa's signature treatment uses the benefits of clay, a natural substance dating back thousands of years, and combines it with slow, deep movements to renew body and mind. The spa's facilities include 9 treatment rooms (including one duo room), a sauna, a steam room, an heated indoor pool and whirlpool, an outdoor pool, a gym and a relaxation area.

The Spa Quatre Terres has chosen to partner with Olivier Claire, a high-quality French brand that offers skincare products that use rare and precious plant-based active ingredients with excellent results. The spa also selected products by **Phyto5** for the quality of its clays and massage oils, and **TooFruit**, organic and natural skincare for children.

A must-try treatment at the Spa Quatre Terres: the Olivier Claire Signature Leading Beauty Treatment: the ultimate personalised facial that really delivers in terms of anti-ageing by renewing, plumping up and smoothing skin.
